

WEEKLY QUADRANT CLEANING PLANNER

Quadrant cleaning is simple. Just figure out how many rooms you have and divide by four. Depending on how many bathrooms you have, each person should only have one bathroom or a kitchen.

We have three floors, so Trisects is even more comfortable. Each person gets a floor.

Are there only two of you? Split the rooms in your home and divide them by two.

Suppose you are the only person that does the cleaning, no worries. Still divide the house, preferably into 4. Try to complete one quadrant each day.

Now that you have your home sectioned chunk your time into an hour a day. If you don't have a solid hour, break your time into two half-hours a day time slots.

The last thing that I found makes cleaning SO much more comfortable is a cleaning bucket, vacuum, and mop on every floor. Nothing is more exhausting than toting all of that stuff from the basement up and downstairs. Tuck your cleaning products away in a closet or off in a corner somewhere. Once a month, check and restock your supplies. Everything has a place and everything in its place. You are not running all over trying to find the necessities to get your cleaning done super fast.

Daily tasks should still be:

1. Throw a load of laundry in, drying, and putting away.
2. Wipe down kitchen counters, put dishes in the dishwasher,
3. Take out the kitchen garbage and recycling after dinner.
4. Do a 15-minute "sweep" of the house in the morning and evening, and put things in their place.

These are suggestions from trying many different ways of keeping my head above water over the years. These housekeeping tips have ultimately worked best for our family.

There is nothing wrong if your house isn't perfect! Don't miss TIME with your loved ones trying to keep it that way!

Do your best, try some different ways that help YOUR family, and do what works.

Live your life, not someone else's.
